CHRISTINA C.P. CHAN

ABOUT CHRISTINA

Christina is a result-driven lawyer and has rich experience in corporate and commercial transactional analysis and advisory for businesses, ranging from start-ups to seasoned companies. She is also of champion of mergers and acquisitions, cross-border transactions, commercial transactions and arrangements, project development, specifically in facilitating purchases and disposals of real property, shares and companies; and of facilitating commercial leases of real properties and joint ventures for land development projects.

Additionally, Christina possesses an extensive knowledge of banking and financial documentation, including those of investment and structured products, and with this wealth of familiarity, she has come to lend advice and insights to regulatory governance, in respect of financial institutions and securities laws.

As a confident, pragmatic and responsive Solicitor, Christina embraces the challenges brought about by the marketplace, with a unique entrepreneurial flair with a passion for excellence in every opportunity.

EXPERIENCE

- Led the identification and evaluation of potential acquisition targets, resulting in numerous completed transactions and major exercises in mergers and acquisitions and corporate restructuring in various sectors comprising of property development, infrastructures, technologies, hotels, medical, e-commerce and en-bloc purchases totalling a consideration sum of approximately RM900 million.
- Leading to the acquisitions, played a key role in increasing their market share by 15% through strategic acquisitions.
- Facilitated cross-border transactions with equity fundings and collaboration with China Society International Economic Cooperation under the Ministry of Commerce, a presidium of China Chamber of International Co-operation of Private Enterprises under All-China Federation of Industry and Commerce consisting of consortium partners from major China's multinational companies.
- Collaborated cross-functionally with legal, finance, technical and integration teams to ensure seamless post-acquisition integration and optimization.
