BENJAMIN
GAW

ABOUT BENJAMIN

Benjamin is a Director in the Corporate and Mergers & Acquisitions Practice Groups, as well as Head, Healthcare & Life Sciences – Corporate & Regulatory. He is also a member of the Telecommunications Media and Technology and Information Technology Practice Group and also co-heads the Employment Practice Group.

Benjamin regularly acts for and advises clients on a wide spectrum of mergers and acquisitions and other transactional and corporate and commercial matters. These matters include sale and purchases of companies and corporate assets, amalgamations, joint ventures, shareholder agreements, corporate restructuring as well as general commercial law.

Benjamin heads up the Healthcare and Life Sciences - Corporate and Regulatory practice, and advises on a full spectrum of matters involving the biotechnology, medical devices, healthcare, and pharmaceutical industries. His experience includes reviewing and drafting clinical trial agreements, patient access programmes, research and development agreements, review of compliance policies, advising on regulatory and ethical concerns, including data and personal privacy concerns especially in the healthcare sector, product liability issues and product recalls.

In relation to technology and corporate intellectual property matters and fintech and blockchain matters, Benjamin regularly advises on legal issues in the commercialisation and exploitation of intellectual property rights, such as research and development agreements, IP licensing and cross-licensing agreements, IP assignments and also franchises and franchising businesses. Benjamin also regularly reviews software licensing agreements, IT procurement and related contracts, website terms of use, and other IT and technology contracts. He also advises on start-ups and early stage investments in technology

companies. He also regularly advises on issues relating to the Payment Systems Act, blockchain and cryptocurrencies and other fintech matters.

Benjamin's practice also includes a strong emphasis on employment law, and he regularly advises clients on the full range of employment issues in the course of an employment relationship, including reviewing employment contracts and handbooks and policies, employee stock option plans, trade unions and collective agreements, to retrenchment and termination of employment. These include preparing and reviewing and advising on employment contracts and handbooks and policies, employee stock option plans, disciplinary matters and investigations, restrictive covenants, retrenchments and contentious and non-contentious termination of employment.

EXPERIENCE

Benjamin has handled many significant matters. Here are a few:

Corporate and Mergers & Acquisitions

- Acted for one of the two Integrated Resorts in Singapore in relation to further investment in Singapore to expand its non-gaming facilities as well as to obtain certain gaming concessions. The total investment commitment of the two Integrated Reports amount to SGD 9 billion.
- Assisted Aptiv-nuTonomy, in its USD 4 billion joint venture with the Hyundai Motor Group, which aims to advance the design, development and commercialisation of autonomous driving technologies.

Corporate IP & Technology & FinTech and Blockchain

- Acted for a European based pharmaceutical manufacturer in a high-stakes Exclusive Licence Agreement where the client would acquire worldwide exclusive rights to a pre-clinical platform developed by a Singapore based company. The expected earnout payments in upfront and success-based development and commercialisation milestones are expected to be more than US\$1 billion.
- As part of United Engineer's S\$455 million sale of luxury car distributor Wearnes Automotive to StarChase Motorsports, we advised WBL Corporation on the structuring, negotiation and drafting of the assignment of WBL Corporation's trade marks in Singapore, Malaysia and China.

Healthcare & Life Sciences

- Acted for Lucence Diagnostics in relation to its Series A funding round, which raised US\$20 million. The funding round was led by Parkway Holdings Limited, which was coming in as a strategic investor, and was looking to, among others, co-develop solutions with Lucence. The Lucence group, which has offices in the US, Hong Kong and China, develops liquid biopsy tests to detect cancer early and improve treatment selection.
